Letter

Dear Selection Committee,

Desert Office Builders, Inc. is excited to submit our company for consideration on the SunCore Data Center project. While our background is in class-a corporate office (ground-up and major ti), we are a hungry, hands-on team that is eager to expand into larger-scale commercial work. Our pricing is highly competitive and our local presence is unmatched.

We are confident that our energy and competitive bid will allow us to bring this project in for less than the larger firms competing.

Sincerely,
Mitchell Brand, President
